#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-16, 22-32 and 43, drawn to a screening method for somatic cell nuclear reprogramming substance comprising contacting a somatic cell comprising a marker gene operably linked to a the expression control region of an ECAT gene with a test substance, and somatic cells.

Group 2, claim(s) 21, drawn to a substance derived for ES cells with the NAT1 gene destroyed.

Group 3, claim(s) 33-41, drawn to a selection method for ES-like cells comprising contacting a somatic cells comprising a marker gene operably linked to a the expression control region of an ECAT gene with a somatic cell nuclear reprogramming substance and selecting cells expressing the marker gene.

Group 4, claim(s) 44-57 and 61-69, drawn to a screening method for a substance for the maintenance of undifferentiated state and pluripotency of ES cells, comprising contacting an ES cell comprising a marker gene operably linked to a the expression control region of an ECAT gene with a test substance in a medium not allowing the maintenance of pluripotency and determining the expression of the marker gene.

The inventions listed as Groups 1-4 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Mitsui et al teaches mice heterozygous for knockout of a Nanog gene and mouse ES cells comprising a Nanog knockout (page 635). Further, Chambers et al teach a screening method where ES cells express Nanog under the control of a constitutive promoter and where exposed to differentiation agents (page 647). Thus elements of the claimed invention were known to the artisan at the time of filing.

In addition 35 U.S.C. § 1.475 states:

Art Unit: 1632

(b) An international or a national stage application containing claims to different categories of invention will be considered to have unity of invention if the claims are drawn only to one of the following combinations of categories:

- (1) A product and a process specially adapted for the manufacture of said product; or
- (2) A product and process of use of said product; or
- (3) A product, a process specially adapted for the manufacture of the said product, and a use of the said product; or
- (4) A process and an apparatus or means specifically designed for carrying out the said process; or
- (5) A product, a process specially adapted for the manufacture of the said product, and an apparatus or means specifically designed for carrying out the said process.

The above groupings demonstrate the present claims are directed to multiple combinations of categories of invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
